# BUNTINGS' NURSERIES

SELBYVILLE, DEL.

---

*Growers of Quality Trees and Plants*

---

BULLETIN No. 1  
SPRING, 1932

---

*A Complete Line of Good Nursery Stock  
Both Fruit and Ornamental*

Telephones: 44 and 45

---

Member of the American Association of Nurserymen, Eastern  
Association of Nurserymen, Society American Florists and  
Ornamental Horticulturists

## Terms and Conditions of Sale

We offer the following stock to the trade, all first class and up to grade.

Boxes and Bales extra, at cost, except where otherwise noted. We charge for boxes as per following scale:

10 ft., 30 in. x 30 in. ....	\$3.75	10 ft., 20 in. x 20 in. ....	\$2.25
10 ft., 28 in. x 28 in. ....	3.25	10 ft., 18 in. x 18 in. ....	2.00
10 ft., 26 in. x 26 in. ....	3.00	10 ft., 16 in. x 16 in. ....	1.80
10 ft., 24 in. x 24 in. ....	2.75	10 ft., 14 in. x 14 in. ....	1.50
10 ft., 22 in. x 22 in. ....	2.50		

Larger or smaller boxes charged for in proportion to prices named above.

Bales will be charged for at actual cost of material only. No extra charge is made for the expense of packing in either boxes, bales or cars, or for delivery to transportation companies.

**NOTICE:** We absorb every effort possible to limit the transportation of trade prices to those we know are in the trade and entitled to receive them. Therefore when asking for trade prices, you are requested to use printed stationery, or enclose a business card. Prices named in this list are for nurseymen, florists and dealers only.

**CLAIMS:** All claims for stock received not as represented should be reported promptly. We cannot entertain claims made after stock has been accepted in good faith, or when a report is not made in some form within a period of 15 days after arrival of stock.

**TERMS:** Usual terms to parties known to us in the trade; cash security or satisfactory reference to unknown parties, not satisfactorily rated.

Our nurseries are free from injurious diseases and insects. A clean certificate of inspection accompanies each shipment.

Your order, if intrusted to our care, will at all times receive best possible attention.

## Evergreens

### NO EXTRA CHARGE B & B

Evergreen prices named are for strictly first-class stock which has been transplanted one or more times, also sheared two or more times, and this stock should not be compared with many on the market which has not been properly grown. If there is anything which shows a difference in quality by lack of transplanting and shearing, it is Evergreens. An Evergreen which has been transplanted and sheared, in many instances, is cheap at our prices when compared with some stock as a gift.

## FLOWERING CHERRIES

## Yoshino (Prunus-Yedoensis)

Strong growing tree of spreading habit. 35-45 ft. in height. Single flowers, slightly fragrant, light pink or white and appear before the leaves. It is a popular variety in the City of Tokyo, Japan, where there are 60,000 of them planted in the parks and streets. When this cherry blooms, the Japanese people have a national holiday to see the cherry blossoms.

## Senriko (Prunus-Lannesians)

Single, large flowers, pink in bud, white when open.

## Kanzan, Kawansan, Sekiyama (Prunus-Serrulata Sachalinensis)

Best with no exception, double, dark pink almost red. Flowers come ahead of the leaves, which are coppery bronze. Flowers are like Baby Cecil Brunner Roses, but darker pink. Tree is a very good grower.

## Fugenzo (Prunus-Serrulata, Variety Veitchiana)

Very good, light pink, very large, double flowers, coppery bronze foliage. Blooms with the Kanzan; some nurserymen call it Albo-Rosea, some Naden: it is neither. This tree is more widely planted than any of the others with the exception of Kanzan. It is a very popular variety at Potomac Park, Washington, D. C.

## Minako (Prunus-Lannesians)

Light pink, immense double flowers borne in great clusters. This is considered one of the best. All buds do not open at the same time, so the tree is in bloom over a long period of time. It is a medium sized tree.

Prices all varieties Japanese Cherries listed above:

4-5 ft., 6 canes or more .....	12.00	100.00

**BARGAIN GRADES OF CALIFORNIA PRIVET**

The following grades of California Privet are as heavily rooted as the regular grades, and are good grades for department store trade, also very desirable to line out in nursery rows to grow on.

The 4-12 inch and 12-18 inch grades are best for grafting Lilacs, etc.

		1000
1 yr. 4-12 in., 1 cane, heavily rooted.....	(10,000 or more \$ 6.00 per 1000)	\$ 7.00
1 yr. 12-18 in., 2 canes, heavily rooted.....	(10,000 or more 10.00 per 1000)	12.00
1 yr. 18-24 in., 2 canes, heavily rooted.....	(10,000 or more 14.00 per 1000)	16.00
2 yr. 2-3 ft., 2 canes, heavily rooted.....	(10,000 or more 18.00 per 1000)	20.00

## FLOWERING SHRUBS, Continued

## LIGUSTRUM OVALIFOLIUM STANDARDS

This is an exceptionally fine lot of stock. The stems are of heavy caliper and straight. The heads have been frequently sheared carefully in almost perfect shapes. No extra charge for balling and burlapping.

	Heads 18" diam. Each	Heads 20" diam. Each	Heads 22" diam. Each
12 in. stems .....	\$0.40	\$0.60	\$0.70
18 in. stems .....	.50	.70	.80
2 ft. stems .....	.60	.80	1.00
2½ ft. stems .....	.75	1.00	1.10
3 ft. stems .....	.85	1.10	1.25

## LIGUSTRUM OVALIFOLIUM GLOBES

## GLOBE SHAPED B &amp; B

Our stock is compact and properly sheared to perfect balls. Can be dug and transplanted at any time during the year. We make no additional charge for the balling and burlapping.

	Each	100	1000
15-18 in. diam. ....	\$0.40	\$ 35.00	\$300.00
18-20 in. diam. ....	.50	40.00	350.00
20 in. diam. ....	.70	60.00	500.00
22 in. diam. ....	.80	70.00	
24 in. diam. ....	.90	80.00	
28 in. diam. ....	1.25	100.00	
30 in. diam. ....	1.50	140.00	
36 in. diam. ....	2.00	175.00	
40 in. diam. ....	3.00	275.00	

## LIGUSTRUM OVALIFOLIUM PYRAMIDS

Sheared to perfect pyramid shape. No extra charge for balling and burlapping.

	Each	100	1000
24-30 in. ....	\$0.80	\$ 60.00	\$ 500.00
30-36 in. ....	1.00	80.00	600.00
36-40 in. ....	1.25	100.00	800.00
40-46 in. ....	1.50	125.00	1000.00

**SPECIAL NOTICE:** Our stock of Privet trained to various forms is all produced on very fertile soil; well fed and cared for. With us here in this climate, it carries its foliage ten months during the year.

## Grafted Stock

Following list of grafted stock is for delivery Spring, 1932. Delivery to be made from May 1st to June 15th. All of this stock will be grafted on parent transplanted understocks, carefully potted in 2¼ and 2½ inch pots; thoroughly hardened and rooted before delivery. Each plant will be shipped with ball of earth on roots, which earth will be carefully wrapped with paper to keep it intact, while in transit. When plants are received unpack carefully and plant immediately. Before planting remove paper from ball of earth on roots in a very careful manner to avoid bursting soil from roots. Plant in beds the first year and shade with lath screen giving about 50% sunlight. Use peat moss on beds after planting, water enough to keep soil moist at all times. By so doing the plants should live and make good growth, then they will transplant the following year to the nursery rows without loss.

5 at 10, 50 at 100, 500 at 1000 rate. Packing at cost or free packing cash with order.

**SPECIAL NOTICE:** When planting, the union must be placed under ground level.

Azalea Pontica, Hardy Ghent in the following named varieties at \$60.00 per 100

Admiral de Ruyter, red	Nancy Waterer, yellow
Aug. Mechelinck, white	Pallas, clear red
Bouquet deFlore, salmon pink	Sang de Gentbrugge, carmine

(Grafted Stock, continued)

## List of One Year Field-Grown Grafted Stock

Grafts bedded out and grown one year in the open. This class of material is always a good buy. We have here in our own nurseries assumed the responsibility of loss which sometimes happens in handling grafts the first year from the greenhouse. The following list of material is of a class which there will always be a ready market for when grown to the finished product, and it is now ready to transplant in the nursery rows without any fear of loss. Note very attractive prices.

## AZALEAS AND RHODODENDRON

## Ready for the Nursery Row

This list, as you will note, is made up from seedlings one and two years old, and transplanted stock which is one and two years after being transplanted. An exceptionally fine list of stock which will eventually grow into plants that are very much sought after at prices that mean good profits. The loss isn't much when transplanting two year seedlings or stock which has been transplanted one or more years in our nurseries.

(Azaleas and Rhododendron, continued)

We quote special prices for large numbers.

100 acres planted for crowns only.

In this section of the country we have numerous varieties of soil, and our Asparagus is all grown on fertile sandy loam, which type of soil produces long healthy roots with heavy crowns which has made Bunting's Asparagus plants famous with the nurserymen and commercial planters throughout the country.

## Hardy Perennial Plants

We can supply millions of Perennial Plants, and specialize in their production. The attractive prices quoted in this Trade List refer in all instances to sturdy, field grown plants (unless stated otherwise), such as can be depended upon to produce an overwhelming display of bloom in a very short time.

## Strawberry Plants

A specialty with us for more than thirty years. The quality of stock we ship out and our method of putting them up for shipment is generally known to the trade. We are one of the largest growers and shippers in the east, and this spring are in a position to supply all of the new and leading standard varieties, also Everbearing varieties in lots of any number you may be interested in purchasing.

During the spring of 1931, we were authorized by the U. S. Department of Agriculture to introduce and distribute a new introduction of theirs named Blakemore, a wonderful new variety of Strawberries—of the two selected by the Department from a list of 55,000 new varieties which they had developed during the eight years work.

This spring they have authorized us to introduce and distribute to the public another new variety, Bellmar, which is, in our estimation, positively the leading and best early variety of Strawberries yet introduced. Please note our attractive prices on both Blakemore and Bellmar, and bear in mind that the stock of plants we have are positively true to name, and free from all types of insects and diseases.

Bulletins on either the Bellmar or Blakemore will be supplied on request. Either address U. S. Department of Agriculture, Bureau of Plant Industry, Washington, D. C., or Buntings' Nurseries, Selbyville, Delaware. These bulletins give complete information on the two worth while varieties of Strawberries.

Our prices, terms, and conditions which we ship Strawberry Plants:

No extra charge is made for the package or packing. Prices quoted are for delivery November 1st to June 1st and apply as follows: 25 to 200 plants of one variety sold at the 100 rate, 200 to 499 at the 250 rate, 500 or more at the 1000 rate.
